How the papers may be used

- If you plan to use the Study Opportunities papers for your exams this year, please request your school to schedule the relevant exams either **on** the dates indicated (in the table above) or **after** those dates – not before.
- Teachers may adapt and use the papers as revision exercises, tests or tasks **after** the indicated exam dates.

How to order the papers

1. Download and complete the entry form.
2. Pay for the papers:
Bank details: FNB, Study Opportunities (Pty) Ltd, AccNo: 62583115863, Branch: 251045.
Enter your school's name and the word Papers as reference.
3. Email/Fax the entry form **together with** the proof of payment to study.opp@mweb.co.za / 086 293 2702.

If the bursar or anyone else is responsible for this, please make it clear that the entry form and proof of payment must be sent together.

You will receive a confirmation email of our receipt of the above **two documents together**.

If you do not receive a confirmation email, it means that you are NOT registered and will NOT receive the passwords. Enquire via email (study.opp@mweb.co.za).

We would appreciate it if you could order all the Study Opportunities exams you plan to use this year at the same time, and on the same entry form. However, if this is not possible, you are welcome to order the remaining papers later in the year.

How the papers will be distributed

- The question papers and memoranda will be loaded onto the Study Opportunities website (www.studyopportunities.co.za) **3–4 days before the date of the exam**. You will need to download these papers and memoranda yourself, as they will not be sent via email.
- As soon as the papers are uploaded to the website, **passwords only for the papers will be made available via SMS** (3–4 days before the date of the exam).
- The passwords for the memoranda will be made available on the indicated days of the exams.

How to prepare the papers prior to a practical examination

Once you have received the password to extract the files, we suggest that you do the following:

- Customise the question paper by removing the reference to Study Opportunities on the title page, and add your own school's name and logo at the top.
- Read through the paper and make any minor adjustments that you deem necessary. We suggest that you keep these changes to a minimum, as they might affect the balance of the paper in terms of the weightings of the degrees of difficulty, as well as the mark allocations.
- Check that ALL the data files open correctly on your school's computers. Do NOT leave this to the last minute!
